FOOD + FLORAL FEASTING TABLES

ABOUT

We are passionate about the timeless tradition of feasting and create bountiful grazing tables that invoke feelings of luxury and joy.

Each table includes a cornucopia of meats, cheeses, breads, spreads, fruits, vegetables, desserts, and flowers. We hunt down the highest quality ingredients from local vendors and global food artisans to make memorable food experiences. Each client is encouraged to express their vision through color, florals, and cuisine for gatherings of any size.

HOW IT WORKS

It all starts with a brief consultation where you let us know about the occasion, guest count, location, and date. This can be done over the phone with chef Richard at 917.216.8437 or you can fill out our on-line form at edenopolis.com.

Once the basic information has been gathered, we move on to your food. If you have any specific requests, cultural nods, dietary restrictions, or anything else, please let us know. Otherwise, leave it to us and we will take care of the rest! Please refer to the following pages for a more detailed breakdown of what we offer.

DESIGN + RENTALS + STAFFING

Tables include fresh flowers of any type and high quality disposable platters, bowls, cutlery, and napkins. We are also happy to order rentals for you if needed. This would include items like tables, glass, wood, and silver or other display items that you want incorporated into your arrangement. Alternately, we love using our client's platters and display items. Staffing is not included and is arranged through our partner company, Top Shelf Staffing, or the staffing company of your choice.

WHY A FEASTING TABLE?

Feasting tables are the ultimate symbol of celebration, luxury, and abundance. They are simple, beautiful, and easy to set up and clean. What we offer is distinct from more conventional catering styles like buffet, passed canapés, or plated service. These styles of service require significantly more staffing, rentals, planning, and therefore more cost. No matter the size of the event, our approach is streamlined and stress-free. We are completely self-sufficient, requiring no kitchen, running water, electric hookup, or equipment.
